What is an Endowment Fund?

It's a fund where the original gift...

- ▶ *Is invested to grow over time,*
- ▶ *With only the set distribution allowance spent from the fund annually,*
- ▶ *So the fund will exist to support the organization forever... and ever.*

Year One

A fund is established with a **\$500,000** and makes a **\$20,000** payout a year later.

Initial gift grows & pays out a board-approved spending allowance each year.

15 Years Later

The fund made **\$345,868** in cumulative payouts, and has a **\$672,934** endowed fund balance.

Original balance is growing & payouts are being distributed. The impact has **doubled!**

30 Years* Later

The fund made **\$811,361** in cumulative payouts, and has a **\$905,681** endowed fund balance.

Original balance & payouts distributed continue to grow. **The impact is nearly 3 times the size of the original gift.**

*Projections assume annual return of 7%, supporting fees of 1.00% and an annual distribution rate of 4.0%.
